Summary

A highly motivated Computer Science and Engineering student pursuing a B.E degree, anticipated to graduate in 2027. Eager to apply theoretical knowledge and practical skills to real-world challenges. I am keen on developing expertise in the tech industry, seeking opportunities to contribute to innovative projects and gain hands-on experience. Committed to continuous learning and professional growth, I aim to leverage my academic foundation to make a meaningful impact.

Experience

Jun 2025 - Aug 2025

Graphic Designer

YHills Edutech Private Limited

During my Graphic Designer Internship at YHills Edutech Private Limited (Internship, 1-7-2025 to 31-8-2025), I was responsible for creating visual concepts using design software. I developed graphics and layouts for product illustrations and websites. My role involved collaborating with the marketing team, leveraging my creativity to align with the company's branding guidelines.

Dec 2023 - Mar 2024

Internship

NEXUS

I contributed to various projects as an Intern at NEXUS (Internship, 2023-2024). My responsibilities involved assisting with data analysis and reporting, and supporting the team in daily operations. I gained experience in project coordination and developed my communication skills through interactions with team members and stakeholders.

Education

2023 - 2027

Erode Sengunthar Engineering College

Graduation • Sustainable Architecture • Computer Science And Engineering

I am pursuing a B.E in Computer Science and Engineering at Erode Sengunthar Engineering College, expected to graduate in 2027. My coursework provides a strong foundation in computer science principles and software development, equipping me with the skills necessary to tackle complex technological challenges. I am eager to apply my knowledge and contribute to innovative projects.

Projects

Bridhunas-LC

📅 Jul 2025 – Oct 2025

Aug 2025 - Oct 2025A What 2 Months of Building a Website Taught Me I just wrapped up the two-month journey of creating and launching the Bridhunas Ladies Corner website, which I'm hosting on Netlify. If you're starting your own project, I highly recommend diving in. The experience is invaluable. Take a look at the finished product : <https://bridhunaslcl.netlify.app/>

E--leraning-system-by-java

📅 Nov 2025 – Nov 2025

The E-Learning System (Java + Selenium) is a complete web application designed to provide students with an interactive platform for accessing courses, managing accounts, and engaging with digital learning materials. Built using Java for the core application logic, the system ensures modularity, scalability, and ease of maintenance.

Question-Paper-Generator-System-BY-JAVA

📅 Oct 2025 – Nov 2025

The Question Paper Generator System (Java) is a desktop/web application designed to automate the creation of exam question papers. Built using Java, the system streamlines the process of selecting, organizing, and formatting questions based on predefined criteria such as subject, difficulty level, and marks distribution.
